

## DIAGNOSTIC CODE CLEARANCE

1. Using SST, connect terminals Tc and E1 of TDCL or check connector.  
SST 09843-18020
2. Clear the diagnostic codes stored in ECU by depressing the brake pedal 8 or more times within 3 seconds.
3. Check that the TRAC indicator light shows the normal code.
4. Remove the SST from the terminals of TDCL or check connector.
